# ABOUT ME

I am Muhammad Shehroz, the founder of Paragon Ecom. With almost four years of experience in the online world, I've had the privilege of launching over 20+ brands and 50+ Dmall stores.

If you want to start a new ecommerce venture, and would love to discuss how we can move forward. Please feel free to book a call with me so we can dive into the details and explore the next steps together.

Thank you!

# MY VISION

My goal is to help you build a brand in any category, whether you're looking to launch on Daraz, an online store, or even a physical retail market. I recommend starting with Daraz, then expanding to your own website, with the final step being the launch of a retail shop.
